The reply filed on 4/4/2006 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the reply does not include a listing of all claims readable on the elected species. See 37 CFR 1.111. Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.
